

# Druck DPI610E Calibrator Trade-Up Offer!

Offer available until 31st December 2024.

the prime source of  
instrumentation technology

**Trade up to a Druck DPI610E Series Hand-held Pressure Calibrator with Scotia Instrumentation and make exceptional savings!**

Trade in a legacy Druck or alternative manufacturer product with Scotia Instrumentation and receive additional discount off a pneumatic DPI610E.

Safe and hazardous area versions available in all pressure ranges from 350 mbar to 35 bar.

The **Druck DPI610E** is the sixth generation of the **DPI600** family and builds upon technical legacy and more than three decades of experience in pressure measurement and calibration.

The **DPI610E** provides all the convenience and reliability of a true "**Druck**", and offers improved performance with optional hazardous area approvals.

Scotia Instrumentation is an official Druck Channel Partner and the only UK based Druck Approved Service Provider.
